BGES Talks: Friday 11th March 7.00pm

Gallery – Stamford Arts Centre

Introduction to Passivhaus; benefits & outcomes; construction techniques and products with a review of two low energy projects led by the Green Building Store;

- **Denby Dale**. A small private house in West Yorkshire constructed to the Passivhaus standard using traditional cavity wall construction.
- **Cr8 Barn**. Redevelopment of a barn at Stirley Community Farm for the Yorkshire Wildlife Trust to the Passivhaus Enerphit standard (for refurbishing buildings)

Presenter: Mike Shufflebotham, Sales Manager, Green Building Store

Passivhaus Ourhouse; a discussion of the influence of designing to the Passivhaus standard on the design and construction of Whitwell Passivhaus, a family home in the East Midlands and performance in use.

Presenter: Tony Godwin, Architect, FCD Architecture
